

I am writing to you so you will know how I and thousands of others like me who may not take the time to write feel about K-Love music in San Diego. K-Love serves as my daily motivation and inspiration to be a better person, a person motivated and inspired to help those less fortunate. The music and talk on K-Love is full of kindness and inspiration to hundreds of thousands like me who are tired of listening to the negative harsh music played on everyother radio station in the community. By removing K-Love from the local channel and displacing K-Love with an LPFM broadcaster would leave thousands like me without a radio station that helps us become better people and reinforce the goodness in our society. K-Love music is in everyone's best interest to be heard for many reasons. Listen to their tagline, "positive, encouraging, K-Love." You never have to worry about what is being played on K-Love or whether your young child should be listening to the program because K-Love is great for everyone to hear. What other radio stations have testimonials about how much the music and station has changed the person's life for the better. When K-Love is on the air, nothing but positive, encouraging messages are heard by all who listen. Please keep from displacing K-Love by an LPFM broadcaster not only here in San Diego, CA but around the country.

Best regards,
